PROFESSIONAL SUMMARY

Results-driven Full-Stack Engineer with 5+ years of experience engineering scalable web applications and distributed cloud

CORE TECHNICAL SKILLS

- Languages: TypeScript, JavaScript, Python, SQL, HTML, CSS, Bash
- Frameworks: React, Next.js, Node.js, Express, FastAPI, Tailwind CSS, Redux
- Databases & Cloud: MySQL, PostgreSQL, Redis, AWS (S3, ECS, Lambda), Docker, Kubernetes, CI/CD
- Tools & Practices: Git, REST API, GraphQL, System Design, Agile, Scrum, Jest, PyTest

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer | NovaCloud Solutions | 2022 - Present

- Architected and deployed microservices architecture handling 15,000+ requests per second, reducing infrastructure costs by 30%.
- Engineered real-time collaborative dashboard using React, TypeScript, and WebSockets, accelerating team productivity by 40%.
- Optimized complex MySQL database queries and implemented distributed Redis caching, decreasing average page load time by 60%.
- Mentored 6 junior and mid-level software engineers on code review standards, test-driven development (TDD), and cloud-native practices.

Full-Stack Software Engineer | Apex Digital Labs | 2019 - 2022

- Developed 18+ high-traffic RESTful APIs utilizing Node.js, Express, and PostgreSQL with 95% automated test coverage.
- Spearheaded frontend revamp migrating monolithic codebase to modular React with Next.js, boosting mobile conversion rates by 25%.
- Automated continuous integration and continuous deployment (CI/CD) pipelines with GitHub Actions and Docker, cutting deployment time by 50%.
- Resolved 120+ mission-critical production tickets, maintaining 99.95% system uptime across global customer clusters.

EDUCATION & CERTIFICATIONS

- Bachelor of Science in Computer Science | University of California, Berkeley | 2019
- AWS Certified Solutions Architect - Associate | Amazon Web Services | 2023
- Certified Kubernetes Administrator (CKA) | Linux Foundation | 2024
